Romain DUJARDIN

4-month internship in Artificial Intelligence

Available from April 25, 2025

Student in 4th year of engineering school in Junia, specialized in artificial intelligence, with solid training in **AI** tools and techniques. Passionate about innovation and technological challenges, I am looking for a **4-month internship abroad** to develop my skills in AI and data science, while exploring innovative and stimulating environments. Motivated by the desire to discover new approaches, I am ready to contribute to **ambitious projects**.

Education

2020 - 2026

4th year - Engineering school - AI field

JUNIA ISEN

Study of AI concepts such as **Deep Learning** (CNN, Perceptron, Keras), **Reinforcement Learning** (ML Agents, Stable-Baselines3, Gymnasium) and **Generative AI** (RAG, HyDE, LangChain, LangGraph). Skills in **Natural Language Processing** (TensorFlow, Pytorch), **Machine Learning**, **Databases** (SQL, NoSQL) and **Conceptual Data Modeling** (CDM). Expert profile in **Python** and learning of **Project Management** methods (Agile, Scrum) as well as **scientific disciplines** (electronics, mathematics, quantum mechanics).

2017 - 2020

High School Diploma with Honors - STI2D

Lycée Gustave Eiffel

Discover the basics of **engineering** and **computer science**

Experience

September 2024 - Present

CERP I Villeneuve D'ascq, France

Pharmaceutical Delivery Man

As a pharmaceutical delivery driver, I am responsible for ensuring the **safe and timely delivery** of medications. I managed route planning and ensured compliance with **health regulations**, while maintaining **clear communication** with pharmacy staff to **meet deadlines** during high-demand periods.

June 14, 2023 - August 30, 2023

Kamio I Montreal, Canada

FoodTruck Clerk

As a clerk in a food truck, I was responsible for **optimizing the work environment** to ensure **maximum efficiency**. I warmly welcomed customers, met their needs while ensuring **fast** and **quality** service. Smooth **communication** with the service team was essential to maintaining a smooth workflow and **meeting requirements** during busy periods.
